- ◆ ***Adobe Illustrator (AI)***
- ◆ ***Adobe Acrobat PDF (PDF)***
- ◆ ***Adobe Photoshop (PSD)***
- ◆ ***Corel Draw (CDR).***
- ◆ ***JPG /JPEG***

***Preferred format is Illustrate.***

### ***Design advice***

- ◆ ***Logos, text and essential images should not go within 2mm of print edge.***
- ◆ ***Please include bleed with your artwork on all edges at least 3mm. The image below shows the necessary extra margin needed during the printing and cutting steps or production.***

***"Bleed" is printing term which refers to the extra color that extends beyond the edges of the final artwork to be trimmed off later.***

### ***Color Format and Image Quality***

- ◆ ***All colors must be CMYK mode, Not "RGB".***
- ◆ ***Image require a resolution at least 300 dpi, the resolution will ensure that your design will appear crisp and sharp instead of blurry.***

### ***Fonts and Text***

***Make sure all fonts are converted to outlines (for Illustrator and PDF)/  
to curves (for CoreDraw) /to shapes (for Photoshop)***

### ***Linked Graphics***

***Be sure to include or embed all of your placed/imported images when you send artwork.***
